Summary

Data Analyst with a strong foundation in SQL, Python, Excel, and Power BI. Skilled in cleaning, analyzing, and visualizing data to generate insights and support data-driven decision-making. Interested in collaborating on meaningful analytical work in fast-paced environments.

Skills

- Programming Languages: Python, SQL
- Libraries & Frameworks: NumPy, Pandas, Matplotlib, Seaborn
- Data Visualization Tools: Advanced MS Excel, Power BI, Microsoft Office
- Databases: MySQL, Oracle, PostgreSQL
- Analytical Abilities: Data Cleaning, Exploratory Data Analysis (EDA), Insight Generation, Descriptive Statistics

Professional Experience

Data Analyst Intern

November 2025 – Present

D Trade Capital

Tamil Nadu, Chennai

- Performed quantitative and data-driven analysis to improve data accuracy by 20% and support business decisions.
- Worked collaboratively with stakeholders to understand requirements, resolve issues, and deliver scalable solutions.
- Optimised SQL queries and reporting workflows, reducing turnaround time by 15% through improved process management.
- Developed Power BI dashboards to monitor market trends, product performance, and growth metrics.
- Prepared regular status reports highlighting risks, issues, and opportunities for improvement.
- Applied strong communication skills and time management to deliver high-quality outputs within deadlines.

Web Development Intern

July 2024 – August 2024

Oasis Infobyte

Pune, Maharashtra

- Worked collaboratively with teams to design and deliver web solutions aligned with business vision.
- Introduced innovative UI/UX improvements, increasing user engagement by 25%.
- Managed multiple tasks using effective time management, ensuring timely and high-quality delivery.
- Resolved technical issues efficiently while maintaining performance and usability standards.

Projects

Car Price Prediction Web Application

Skills: Python, scikit-learn, Streamlit, SQL

- Built a machine learning model with 85%+ accuracy
- Conducted EDA, feature engineering, and model evaluation.
- Deployed a Streamlit app for real-time car price prediction

Online Sales Dashboard

Tools & Technologies: Power BI, Excel, SQL

- Processed and transformed raw sales data using Excel and SQL to create a structured dataset.
- Created KPI dashboards using DAX formulas to measure revenue, profit, and sales growth.
- Designed interactive Power BI reports enabling drill-downs and data-driven decisions.
- Automated recurring reports to reduce manual workload.

Certificates

Data Analytics Trainee | QSpiders Pune

Tools & Technologies: SQL, Python, Power BI, Numpy, Pandas, Matplotlib, Seaborn, Excel

Key Competencies: Data Cleaning, Querying, Visualization, and Reporting

Education

Kavayitri Bahinabai Chaudhari North Maharashtra University

June 2022 – June 2025

B.Sc. in Information Technology

Jalgaon, Maharashtra

Percentage: 77.61%
